

Fuel the Future. Build the Nation.

ONGC, India's Maharatna energy leader, contributes over 73% of the nation's oil and 57% of gas production, with a global presence in 18 countries. Future-ready and inclusive, ONGC is investing in natural gas, renewables, and cutting-edge technologies to shape tomorrow's energy.

For young graduates, ONGC offers more than a career—it's a launchpad for ambition, innovation, and professional growth. Join a diverse community of around 22,600 professionals and be part of a prestigious organisation that powers progress and serves the nation.
